

## Returning a Precise Flight Pulselite for maintenance and repair

When sending in your Pulselite for maintenance, Precise Flight will inspect and test your unit. You will receive a quote within 2 business days. Standard lead times for service and repair is 5-7 business days after the quote is approved. If there is no fault found with the unit upon testing a \$165.00 inspection and recertification fee will apply. If the unit is found to be unrepairable, a replacement can be purchased through our Sales Department.

**\*Warranty Repair: All Pulselite units will need to be tested and inspected before warranty approval. \***
